

# Oregon City Amateur Radio Emergency Service (OCARES) Net Script

Good evening. This is (**CALL SIGN**). My name is (**YOUR NAME**), and I am net control for WA7OC, the Oregon City Amateur Radio Emergency Service, better known as the OCARES net. This net meets each Sunday evening at approximately 1935 hours local time on OC1, the Boynton Repeater. From OC1 we will then change frequency to CLAC7, the Highland Butte Repeater. The purpose of the net is to distribute messages, bulletins, and information to members of OCARES and other net participants. Emergency traffic will be handled at any time by saying “break” during the net.

This is a directed net. All stations are asked to remain on frequency unless excused or the net secures. Stations will be called for by the first letter of your callsign suffix. Please use proper ITU phonetics when checking in.

Do we have any emergency traffic; If so, please reply with your call.

**NET CONTROL INSTRUCTION: If emergency traffic has been received, call for any stations on frequency that can handle the listed traffic. Record stations handling the traffic and the number of messages being exchanged between each station or stations.**

Nothing heard. Are there any stations wishing to check into the OCARES net with suffix beginning:  
[A]lpha through [M]ike?  
[N]ovember through [Z]ulu?

Are there any bulletins, announcements, comments, or questions for the net? If so, please give your call.

Are there any late or missed stations on frequency that desire to check into the OCARES net? The net will now change frequency to CLAC7, the Highland Butte Repeater. WA7OC is now changing frequencies to CLAC7.

This is (**CALL SIGN**). My name is (**YOUR NAME**), and I am net control for WA7OC, the Oregon City Amateur Radio Emergency Service, better known as the OCARES net. I will now conduct a poll to see who has made it over to CLAC7.

Are there any new or late stations on frequency that desire to check into the net?

Are there any bulletins, announcements, comments, or questions for the net? If so, please give your call.

## **IF THERE IS A PRACTICE SESSION:**

We are now going to have our skills practice session. This week’s session is being led by (**LEADER’S CALL SIGN**). (**LEADER’S CALL SIGN**) this is (**CALL SIGN**) please go ahead.

I thank everyone for checking into the net this evening. We also thank the amateur community for allowing us a clear operating frequency. WA7OC is now clear.
